

Kharga[®]

Smart management solution
for electric vehicles parking
and charging

Your plugInn oasis

TheProject

- Electric vehicles charging stations are currently in high demand, and the need is continuously growing, as the fewer number of accessible charging points becomes a pressing issue.
- We want to electrify parking slots – for those EVs on the road today and those in the future.
- The Kharga approach is practical, accessible, and hassle-free. We provide turnkey solutions, from design to post-implementation hand-holding.

Your plugInn oasis

TheWhy

- The number of electric cars is already **significant** and continues to grow.
- We know for a fact that one of the most pressing issues for electric car owners is finding hassle-free charging options.
- Current solutions do not scale to meet the **increasing number** of electric vehicles on the road.

Your **plugInn** oasis

TheBenefits

- **Enhance resident convenience** by offering at-home EV charging, a solution designed to simplify vehicle charging right from their doorstep.
- Provide residents with access to a **certified, secure, and shared charging** service tailored to the residential community.
- Empower residents with **flexible scheduling options** - set charging times based on preferred hours, days, weekends, or availability.
- Provide the convenience of overnight charging: Simply **plug in & relax** - your car is ready in the morning!

Your **plugInn** oasis

The Setup

- Existing parking spaces in your building that **we can retrofit** into EV charging spaces.
- A point of contact for the **project's implementation.**
- Your partnership matters. We value you and want to develop this innovative solution **together.**

Your **plugInn** oasis

WhyUs

- Our **certified** and **professional** teams have broad expertise, from design to maintenance and consulting.
- We can assist with **procedures** and **approvals** to speed up the process.
- Integration with the building's BMS.
- Access to a **shared, certified** and secure charging service for the whole building.
- One invoice for all expenses.
- We follow I.S.U. regulations.
